- Graph points on the coordinate plane to solve real-world and mathematical problems
- Classify figures based on their properties

Science

Scientific Inquiry

- Demonstrate an understanding of the scientific process and inquiry

Physical Science

- Demonstrate an understanding of the structures and properties of matter
- Demonstrate an understanding of the interactions of stars and the solar system

Life Science

- Demonstrate an understanding of the relationship between matter and energy in organisms and ecosystems

Earth Science

- Demonstrate an understanding of the interactions of Earth's systems

Social Studies

History

- Describe the lives of people living in North America before European exploration
- Identify the causes and consequences of European exploration and colonization
- Distinguish and explain the reason for regional differences in colonial America
- Analyze the development of the slave system in the Americas and its impact on the life of Africans

What can I do to help my child be successful in school?

- Read every day
- Make time to talk with your child
- Go over school work with your child
- Play card & board games with your child and discuss strategies
- Ask your child what they learned in school each day
- Encourage your child to be responsible and to work independently
- Have your child measure ingredients when cooking or baking with you
- Encourage your child to track or graph scores from a favorite sports team
- Count change from the store and estimate the total cost while shopping
- Notice patterns and shapes in the environment
- Check school and classroom websites
