

POLICY _ STUDENTS – 2000 Series

Update 17.03 (Policy 2007 – Cardiac Emergency Response Plan)

The Michigan Legislature passed two bills which require amendments to the School District's Cardiac Emergency Response Plan Policy prior to the 2025-2026 school year. We are recommending those changes be made now.

Cardiac Emergency Response Plan The purpose of this policy is to comply with Sections 19 and 19b of the Fire Prevention Code and Section 1319 of the Revised School Code. The Superintendent will develop and implement regulations that will enable the School District to offer an appropriate response in the event of a cardiac emergency. These procedures will address, at a minimum:

- The use and regular maintenance of automated external defibrillators located throughout the school's campus and athletic facilities.
- The establishment, and activation of a cardiac emergency response team in the event of an identified cardiac emergency and integration of the cardiac emergency response team with the local emergency response agencies and system.
- The methods for effective and efficient communication in the building or outside area in which the emergency arises.
- A legally compliant training plan for the use of automated external defibrillators and cardiopulmonary resuscitation techniques.
- The incorporation or integration of a local emergency response system and emergency response agencies into the School District's procedures.

The Superintendent will periodically evaluate the School District's cardiac emergency response procedures and report the evaluation results to the Board.
