## Early Entrance

*At the Early College of Macomb (ECM), 11<sup>th</sup> grade students enter a college program while still in high school.*

They benefit from a curriculum that enables them to earn their high school diploma and attend a 13<sup>th</sup> year of school after graduation, earning an Associate’s Degree *with no cost to themselves for tuition, fees and books.*

## Early Exit

*Students in the ECM may complete the program with an Associate’s Degree in three years (grades 11, 12 and 13).*

Early College of Macomb students attend high school classes in their home schools, as well as career-focused classes on the Macomb Community College campus. Students engage in an exciting curriculum taught by both high school and college instructors that will move them *ahead of a traditional schedule* toward degrees or technical certificates that match the students’ chosen career pathways.

## Early Success

*Once students complete the program, they are poised for immediate success.*

They may earn up to the 60 college credits required for their associate’s degree or technical certificate. These credits may also be transferred to a four year college program. They have the option to begin work immediately in their chosen field, or continue with their education a year ahead of their peers toward a Bachelor’s degree.
