

## Transcript of Romeo Community Schools We Love Our Schools Video

0:00 I love Romeo schools because I feel as though they're very fast forward moving  
0:05 it may be a small community but I feel like we're moving with the times and  
0:09 that's important to me for my son  
0:17 well it's one of the most difficult decisions you can make; where are you gonna  
0:22 send your child to school and the great thing about this community in this  
0:26 district is that feeling of belonging that your child has no chance of  
0:32 slipping through the cracks because we are a size that affords us the ability  
0:36 to be able to connect with everybody. I love the kids in Romeo Community Schools  
0:40 I really do. I get hugs constantly there; they're just vivacious, they're energetic  
0:47 they're loving and caring and they're smart they're talented, they're athletic.  
0:53 honestly I chose this district for my own family and I don't regret it  
0:57 the vision that we have for our community and for the school district is  
1:01 amazing. I think that with the new high school coming in and within new middle  
1:05 school happening and so many things happening in the elementary school level  
1:08 that there really is something for everybody  
1:11 I love Romeo schools because of the people; we have great students we have  
1:14 great staff and then really just the interaction between the schools and the  
1:17 community is unbelievable we've always done more with less and we are getting  
1:22 more so the expectations are going to be even higher  
1:25 I think Romeo is going to be a place that everybody's want to seek out to  
1:29 come to because of the high expectations. All of the teachers in this district are  
1:33 incredibly dedicated. They're sincere and caring they want what is best for every  
1:39 student as an individual and they work really hard to make sure that your child  
1:42 is challenged and reaches their full potential. We have a wonderful arts  
1:48 program; our drama program is amazing. Over a hundred and fifty students are in  
1:52 productions and we just haven't forgotten; while other districts are  
1:57 cancelling programs we're making sure that they survive.  
2:01 what's unique about Romeo is they really want you to be involved as much as you  
2:04 can. I played sports and was involved in the theater program which is something  
2:07 that a lot of schools won't allow you to do, but because I went to Romeo I was  
2:11 allowed to participate in like whatever I wanted to and it's  
2:14 I'm really grateful for. In high school I've taken a lot of AP classes so I can get a lot of  
2:18 college credit and AP classes set me up with summer homework and a lot of reading  
2:22 and writing to do like AP lang and AP gov which really helped me out with college and  
2:25 all the work load I'm gonna get there.  
2:27 I feel like Romeo like the whole little town of Romeo was like a big family  
2:33 they love each other and they help each other out and they're very like they  
2:37 have a lot of spirit. I would describe Romeo is a place that has everything  
2:42 that a large district would offer with a small-town feel. People know who you are,

2:47 we have a history here a lot of tradition and that makes it a really  
2:52 special and unique place to be. I love Romeo schools because of everything that  
2:58 it stands for: the relationships that I've built personally and the  
3:01 relationships that I'm building with current students and future generations.  
3:06 I love everything about this place.  
3:10 We love Romeo Schools.
